12*								

Team Average 1175 avg 11 **0** **1**

* Team size may not exceed 12 members. Only 10 team members may play singles in any given League Match. If there are more than 10 team members, the extra team members may play doubles only.

** Ranking Guidelines: Ranking for the current year should be the same as the ending ranking of previous year unless the player has significantly improved. New players will not have a ranking and should normally be ranked at 1000 unless they have been playing for several years. The Coaches' Handbook offers tips on ranking players. For newer coaches, it is recommended that you consult with more experienced coaches before ranking new players higher than 1000. All rankings should be between 1000 and 2000.
